EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ernest J. Beffel, Jr. on 8/26/08.

The application has been amended as follows:

In the Specification:

On page 5, line 21, please delete – , **etc** –

In the claims:

Please cancel claim 4 and claim 5.

Please amend claims 1, 2, 6 and 7 as follows:

1. (Currently amended) A method of providing product information to a user, the method to be performed by computer-readable program code running in a computer, the method comprising:

detecting an occurrence of a first ~~display~~ window in the computer;

determining if the first ~~display~~ window includes an offer to download a computer program;

Art Unit: 2151

identifying the computer program, including looking up in a product list a class identification (CLSID) of the computer program to be downloaded; and

displaying a second ~~display~~ window in the computer, the second ~~display~~ window including third party information about the computer program.

2. (Currently amended) The method of claim 1 wherein the first ~~display~~ window is launched by a web browser.

6. (Currently amended) The method of claim 1 ~~5~~ wherein the product list is updateable by downloading a new product list from a remote computer to the computer.

7. (Currently amended) A computer memory comprising:

a listener, the listener including computer-readable program code for detecting ~~the~~ opening of a new ~~display~~ window;

a product list, the product list including a list of computer programs, unique identifiers for the computer programs and a description of each of the computer programs, the description of each of the computer programs comprising third-party information that helps users decide whether they should install a computer program being offered for download;

a ~~display~~ window analyzer, the ~~display~~ window analyzer including computer-readable program code for detecting whether the new ~~display~~ window is offering a computer program listed in the product list for download;

a user interface manager, the user interface manager including computer-readable program code for displaying third party information about the computer program offered in the new ~~display~~ window and listed in the product list.

Examiner's Remarks

The Boards (BPAI) raised 35 USC 112, second paragraph rejection, BPAI decision 6/2/08, pgs. 8-9 and 11, has been overcome by the applicant by deleting the broadening term "etc" from the specification. Thus, the scope of the claimed window, now, does not broadly encompass all means, including future, unknown means for presenting information.

In the telephone conference 8/27/08 with applicant's representative, applicant's representative stated, with respect to claim 7, that in claim 7, the act of identifying the computer program, including looking up in the product list a CLSID and/or unique identifier of the computer program to be downloaded, is inherent and/or is the only way to achieve and/or implement claim 7.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KAMAL B. DIVECHA whose telephone number is (571)272-5863. The examiner can normally be reached on Increased Flex Work Schedule.
